

# DIRT CHEAP

Use the DIRT in your yard  
to have CHEAP utility bills

Many **smart homeowners** no longer dread receiving their monthly utility bills. That's because they made the **switch to geothermal heating and cooling** technology. In fact, many geothermal system owners see **savings up to 60%** on their utility bills compared to ordinary furnaces and air conditioners— **with exceptional comfort**. And with the costs of natural gas and propane skyrocketing, it's a **smart decision** now and for years to come. So relax, and take control over those utility bills.
